Dr. Suhaila Alahmed
 Consultant pediatrician
 MBCHB Baghdad -1972
 MRCP UK & Ireland – 1983, MRCPCH UK -1996
 FRCPC UK -1999
 Consultant pediatrician and assistant professor-Basra Medical College 1983-1992
 Last position Consultant pediatrician at St. George’s Hospital London, UK

Dr. Suhaila Alahmed

- **Why this workshop is important?**
 SGS provides reliable snapshot of child’s development including areas of strength & potential delay in the 0-5 years. Currently, there is no standard method of assessing children’s development in Basra or other parts in Iraq.
- **What this workshop will focus on?**
 It will focus on introducing SGS to the audience, demonstrate the ways carried out, familiarize the participants with the toys Used and the forms as well as the scoring system. Hoping to carry out The assessment on two healthy normally developing children if possible. Also showing videos during the presentation.
- **Who will attend?**
 General pediatricians, family doctors, trainee doctors in pediatrics
