

# **University of Basrah**

## **College of Medicine**

### **Department of Community Medicine**

#### **Mission**

The Department of Community Medicine carries a fundamental message which encompasses deep-rooted faith in and continuing efforts to cultivate the concepts, principles and practices of Community Medicine or public Health Medicine at philosophical, practical and academic domains. The department endeavor every effort to share at any level to help promote, protect and restore population health, to contribute to relevant teaching, research and advisory work. In addition, the department tries to disseminate the culture of partnership, team work and system approach to problem analysis and system design. The department of Community Medicine is pioneer at the national level in establishing and strengthening of postgraduate studies both at the academic and professional level.
